Reabe Hopper Quantity Gauge:

Quantity probe: industrial grade with 30G vibration rating

- » 1 Gallon Precision in 800 gallon system (probe precision to .001")
- » Boom Pressure and Vacuum Gauge
- » Automatic 3-point to level-flight mode selecting
- » Pilot display has ½" digits for clear daylight readability for pilot. Green digits are night vision compatible.
- » Remote display has 1" digits so loader can read quantity from the wingtip.
- » Adjustable dimming capability
- » DIP switch settings allow for the display to function in any model airplane.
- » Ties into Reabe Smart Gate to display gate openings and lbs. of product

The Reabe Hopper Gauge has been sold since 2009 and is standard equipment on Air Tractors. Pilot and mechanic feedback has been vital in its development and has led to features that no other system on the market can match.
